Examination Preparation....." be prepared everyone".....

Exam preparation really begins the day when your course begins, because your success depends on your day-to-day study habits as much as it depends on the more concentrated periods of study in the weeks leading up to the exam. If you have well-organised and complete notes and have regularly revised your work at the end of each topic or section, you are already on the way to success. However, in the weeks before the exam, you can aim for efficient and effective study by acting on the following steps.

1. Make a study plan
2. Give yourself enough time to study.
3. Use flow charts and diagrams.
4. Practice on old exams. Test and time yourself.
5. Organize study groups with friends test each other
6. Organize your space and materials.
7. Get plenty of sleep the night before the exam.

Do not get stressed.....**get prepared!!!**
